

SMM meeting notes 10/26/23

26 Oct 2023

Chen Wang Yong Wook Kim

Status check

- Twitter paid plan in progress. Lisa needs to submit P-Card exception which takes time. Remind myself in 2 weeks
- Email link fixes built and deployed. Release new versions shortly
- Google analytics
 - PRs merged
 - <https://github.com/ncsa/standalone-smm-analytics/pull/82>
 - <https://github.com/ncsa/standalone-smm-smile/pull/109>
 - Project and Dashboard see here: <https://analytics.google.com/analytics/web/#/p412935125/reports/intelligenthome>
 - Add landing page to monitor leverage environment variable of the github page.
Need to research how to read environment variable from github page action. (YWK)

Environment variables

Variables are used for non-sensitive configuration data. They are accessible only by GitHub Actions in the context of this environment. They are accessible using the [vars context](#).

- Radiant update status check Doesn't affect us
- ArgoCD Related to Redis Volume (When the volume was unmounted, the argoCD complained so just remounted the volume again)
- Clowder extractor bug Proper fix will be done and new Clowder release coming soon. Need to double check if we need to do anything (the NCSA clowder helm chart version will change or not)

TODOs

- Slides/presentations for [Gateways23 Nov.1](#) and invited talk at Applied Research Institution Nov.6 (Chen)
- Upload raw social media data to Clowder [bugfix](#) (Chen/YWK)
- Rewrite AutoPhrase (Chen)
- Github Actions. Details please refer to [last week's note](#) (YWK)
- Repo reorganization (YWK)

Logistics

- Travel documents received?
- Meet up at the Champaign airport ~10:30 am. flight at 11:27
- Meet up at PIT ~ 5:00, flight at 6:27 PM

Priority

- GC_KEY
- Email
- Releases

Backlogs

- Question about Volume: How to increase/ request more volume in radiant? Don't see it in the request for Radiant project.
