

# 2020-06-05 Meeting notes

## Date

05 Jun 2020

## Attendees

- [Luigi Marini](#)
- [Rob Kooper](#)
- [Shannon Bradley](#)
- [Maxwell Burnette](#)
- [Michael Lambert](#)
- [Bing Zhang](#)

## Discussion items

Time	Item	Who	Notes
	Updates	<a href="#">Luigi Marini</a>	<ul style="list-style-type: none"><li>• Clowder 1.9 has been released<ul style="list-style-type: none"><li>• Release tweet pending</li></ul></li><li>• Using GitHub going forward after 1.9 release<ul style="list-style-type: none"><li>• Will start going down the list and migrating existing JIRA issues to Git</li><li>• Clowder developers have been added contributors to GitHub organization</li><li>• Open question: one repo per-extractor? Should this be strictly enforced?</li></ul></li><li>• External group reported a medium vulnerability alert from jQuery</li><li>• Found/fixed various bugs during testing the branch upgrading Clowder to use Elasticsearch 7<ul style="list-style-type: none"><li>• Not related to the ES7 migration</li></ul></li><li>• Discussion of ideas for automating testing the UI<ul style="list-style-type: none"><li>• Selenium - can be tricky unless test cases are simple (recommend PageObject pattern)</li></ul></li></ul>
	Updates	<a href="#">Rob Kooper</a>	<ul style="list-style-type: none"><li>• Had to leave early, no full update provided</li><li>• API documentation is out-of-date - this may be causing confusion for external collaborators<ul style="list-style-type: none"><li>• Updating Swagger</li></ul></li></ul>
	Updates	<a href="#">Maxwell Burnette</a>	<ul style="list-style-type: none"><li>• Demo of WIP for selecting multiple files to support bulk operations in Clowder datasets - proposed operations:<ul style="list-style-type: none"><li>• Show only marked - filter files list to show only those marked</li><li>• Download All - download selected files as a ZIP (may take a bit of extra work)</li><li>• Delete All - delete all selected files</li><li>• Tag All - add the same tag to all selected file</li><li>• Clear All - clear selection (and uncheck "show only marked"?)</li></ul></li><li>• Other improvements proposed (collected from project feedback)<ul style="list-style-type: none"><li>• Convert selection datasets to collection ("Save Selection as Collection"?)</li><li>• Selection becomes a list that can contain datasets, collection, spaces, etc</li><li>• Generalized view with sorting options</li><li>• Recently-viewed datasets, spaces, files, etc</li></ul></li></ul>
	Updates	<a href="#">Michael Lambert</a>	<ul style="list-style-type: none"><li>• Quick note about "Image Flipbook" feature and <code>sortInMemory</code><ul style="list-style-type: none"><li>• Default behavior of Next/Previous is always Newest to Oldest</li><li>• Default behavior of file list in datasets view changes based on the value of <code>sortInMemory</code></li></ul></li></ul>
	Updates	<a href="#">Bing Zhang</a>	<ul style="list-style-type: none"><li>• bctest framework is looking good so far for testing extractors and Clowder backend</li><li>• using graylog to persist extractor logs, but running into some issues - need to ask <a href="#">Rob Kooper</a></li></ul>
	Updates		

## Action items
