- Michael Lambert
- Todd Nicholson
- Bing Zhang
- Mark Fredricksen
- Michael Bobak
- Rob Kooper
- Elizabeth Yanello
- Sandeep Puthanveetil Satheesan - absent
- Shannon Bradley - absent

## Discussion items

Who	Notes
Luigi	<ul style="list-style-type: none"><li>• We did a 1.11 release and a pycloswer release this week.</li><li>• We are trying to get an extractor release next week and will need a lot of PR's</li><li>• Extractor View Metrics have updates</li><li>• Migration code with Mongo is not working with extractor field - perhaps drop the spaces. Once I push this, please test.</li><li>• Constantinos from Cyprus is asking how to handle zip files (could be a bug)</li><li>• Everyone take a look at the Main Branch prior to release mid-next week.</li><li>• Will be adding examples in clowder jupyter - both generic and technical will be helpful to all</li><li>• Update README when you add a notebook</li></ul>
Max	<ul style="list-style-type: none"><li>• Some discussion of date handling for metadata search in <a href="https://github.com/clowder-framework/clowder/pull/76">https://github.com/clowder-framework/clowder/pull/76</a></li><li>• Updated PR for wireframe extractor page to add filters, planning to add more before release next week</li><li>• Have metadata parsing from XML json file working for RDA ingest, last remaining parts are the streaming of remote files and folder recreation</li><li>• Elasticsearch format - date alternate format gives an error. Dates should have hyphens rather than slashes. We could have a date picker.</li><li>• There is a date and time widget which should trigger the date picker.</li><li>• Syngenta does not have this picker</li><li>• Maxwell Burnette create a follow up issue</li><li>• Recreating folder structure. PR should be ready next week</li></ul>
Mark	
Bing	<ul style="list-style-type: none"><li>• Will fix the conflicts in the branch extractor</li></ul>
Mike L.	<ul style="list-style-type: none"><li>• Reviewed a bunch of open PRs</li><li>• Fixed merge conflicts in open PRs</li><li>• Michael Lambert create an issue for date picker/metadata - <a href="https://github.com/clowder-framework/clowder/issues/93">https://github.com/clowder-framework/clowder/issues/93</a></li></ul>
Rob	<ul style="list-style-type: none"><li>• pycloswer releases 2.3.2 and 2.3.3</li><li>• bug fix for heartbeat</li><li>• helm chart release 0.6.1 (soon 0.6.2)</li><li>• includes clowder 1.11.1</li><li>• auto PR for extractors based on pycloswer release</li><li>• Ratings and Comments will be removed during this release.</li><li>• In clowder-framework/extractors-clamav, Rob has created an automatic update to the latest version of pycloswer and create PR's.</li><li>• This should be in documentation to advertise this.</li></ul>

Mike B.	<ul style="list-style-type: none"> <li>• Got CDF repos in clowder <a href="#">spaces</a>, w/search etc, but a way to go, so</li> <li>• Created <a href="#">proposals wiki page</a> to get it to be more like present search</li> <li>• Have assert code in <a href="#">github</a> &amp; will get crawling as code in <a href="#">ec-github</a> as well</li> <li>• Crawl is a few scripts being turned into code incl dealing w/sitemaps etc.</li> <li>• tarding to look back at clowder code to fix openness vs move to 2ndry use</li> <li>• People can refer to bullet points to make comments.</li> <li>• Using notebook for query and will add to github.</li> <li>• Please make a PR against the Clowder Jupyter notebook</li> <li>• <a href="#">Promoted Metadata in Space Displayed on Right Panel</a></li> </ul>
Sandeep	absent
Shannon	absent
Lisa	<ul style="list-style-type: none"> <li>• Who to invite to 10/23 Webinar - Change to November 6th for webinar</li> </ul>
