- Updates
- Pull requests

Discussion items

Time	Item	Who	Notes
	Clowder All Paws	Team	- Clowder All Paws: - To be scheduled for 02/27 at 3 pm - Agenda: - Lightning Talks: - Luigi: Geo-streaming API - Max: PyClowder PyClowder2 - Indira: Clowder permissions (sharing) - Update about March release
	Release plan for PyClowder and extractors	Rob and Luigi	- All extractors and PyClowder will need to have release tags - It was agreed that version numbers will be kept in sync between the Core Webapp and Pyclowder.
	Pull request	Team	https://opensource.ncsa.illinois.edu/bitbucket/projects/CATS/repos/clowder/pull-requests
		Team	- PyClowder, extractors, converters, etc., need to have licenses - Discussed about having NCSA, BSD or Apache licenses - Apache license has the advantage that it protects future patents
