

2017-08-07 - ISDA Team - Stand-up Meeting Notes

promise me you
will always
remember you
are braver
than you believe,
stronger than
you seem, &
smarter
than you think.
— Christopher
Robin

Who	Planned - Monday	Accomplished - Friday
Bing Zhang		
Christopher Navarro	- Cover Crop - catch up on project status - IN-Core - code review, documentation - Vacation - M - W	- Ergo - replied to email requesting information on adding new plugins/features to Ergo without creating new builds - Started on KISTI attenuation models - IN-Core - Updated documentation pull requests - Reviewed pull requests - General - caught up on projects
Craig Willis	- bioCADDIE All-Hands meeting and final report - TERRA metadata cleaning - NDS sprint 30 - Explore integration of Workbench with HPC environments for SC17.	- bioCADDIE All hands – final report still in draft - TERRA metadata cleaning process near complete, but needs to be integrated with pipeline - Container workshop organization
Eugene Roeder	Family Leave	
Gregory Jansen		
Htut Khine Htay Win		

Indira Gutierrez Polo	In-Core - Documentation - Update shapefiles GLM - Dissolved Oxygen visualization - Ingest data.	
Inna Zharnitsky		
Jing Ge		
Jong Lee		
Kenton McHenry	In and out of the office / "vacation"	In and out of office / "vacation"
Luigi Marini	Vacation	
Marcus Slavenas	- BD - matlab and jupyter - GLTG - windows server vm for aquarius - VBD - look at some data	- GLTG - able to build window server 2012 image, but gets caught in repair loop on nebula - BD - jupyter - look into using jupyterhub rest api for login, only able to get version endpoint to respond
Maxwell Burnette	- continue integration of final terrautils hooks into all TERRA extractors for final reprocessing prep	- terrautils integration and updates for 9 extractors & additional standardization steps - caught up on resume reviews - prep slides for Monday presentation at container workshop
Michal Ondrejcek	- MDF - set up Clowder API with Nb dataset - copyright for review articles - MWRD - working on VM, data, code	- MDF - worked on it - done - MWRD - working on VM, data, code
Sara Lambert		- NDS - Codefresh beta keeps failing on git checkout.. perhaps it doesn't support PRs from forks? ☒ NDS-590 - Make a better 404 and 502 (and other?) pages RESOLVED ☒ NDS-984 - Single-node installations can fill up the root disk, causing catastrophic failure RESOLVED ☒ NDS-985 - Single-node installations flake out in high-load scenarios RESOLVED

- NDS
 - Check out the [codefresh](#) beta
 - ☒ [NDS-590](#) - Make a better 404 and 502 (and other?) pages RESOLVED
 - ☒ [NDS-990](#) - Run tutorial on real HPC/Hadoop system OPEN
 - ☒ [NDS-984](#) - Single-node installations can fill up the root disk, causing catastrophic failure RESOLVED
- KnowEnG
 -  [KNOW-445](#) - Jira project doesn't exist or you don't have permission to view it.
 - Sprint planning Monday:
 -  [KNOW-495](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-493](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-259](#) - Jira project doesn't exist or you don't have permission to view it.
- CiS
 - Send [UI prototype](#) to Matt Turk for feedback
 - Try to schedule a meeting with Meagan to discuss any existing architecture

- KnowEnG
 -  [KNOW-445](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-495](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-493](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-259](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-297](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-513](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-97](#) - Jira project doesn't exist or you don't have permission to view it.
 -  [KNOW-489](#) - Jira project doesn't exist or you don't have permission to view it.
- CiS
 - Showed UI prototype at meeting, and got some mixed reactions
 - Set up a meeting with Rachel/Stephen/Amy to gather requirements

Michelle Pitcel	- GLM - GEOD-904 - GEOD-945: Create Mockup - If time: GEOD-956 - GLTG - GLGVO-342 - IMLCZO - IMLCZO-180 - Start looking at Code Review - Re-run Parser for Flux Tower - Re-run Parser for Allerton non-Decagon	- GLM - GEOD-904 is in review - GEOD-945 - Wiki Mockups created - Created a Pull Request for a code Mockup based upon the Wiki Mockups - GLTG - GLGVO-342 is in review - IMLCZO - IMLCZO-180 is in review - Helped assist a User with Clowder issues - Re-ran Parser for Flux Tower - Re-ran Parser for Allerton non-Decagon - Started looking at Code Review
Omar Elabd	- IN-CORE v2 Semantic Service/Ingestion - IN-CORE v1 Beta Documentation	- IN-CORE v2 Semantic Service - Analysis/Ingestion Integration prototype in Java and Python
Pramod Rizal	KnowEnG - KnowEnG Platform Public Release - SSL certs and Email DKIM setup - Prod Servers - AWS FedRamp	KnowEnG - KnowEnG Platform Public Release - Email DKIM setup - Prod Servers - AWS FedRamp Discussed
Rob Kooper	Vacation	
Sandeep Puthanveetil Satheesan	- BD - Help with new sprint planning - Work on sprint tasks - CCROPS - Continue with web interface development - Look into the scripts developed by Alvin - IARP - Send updated workplan text	
Shannon Bradley	- Off Monday - Brown Dog Report - is merged - need 2 more reports - Brown Dog - Rollout - Milestones review - Brown Dog - Sprint Management - GLTG - JIRA Management - Test Plan In-Core - HR tasks - interview, Resume Review, schedule team review - Agile Programming - Bro Project help/PM group review - Follow up on Nebula Order/Documentation - SC	
Yan Zhao		- BD - fix plantcv extractor – thanks Max - fix shiny TUVtool - GLM - API-v2's DB returns sensor as sensormodel. - treads api almost finished. - parse- schedule. – maybe not put the code in the current folder.
Yong Wook Kim	- Unit Test for Data Repository Rest Service - INCORE Beta release preparation - Testing Docker	- Created method for using pozo object for MVZ property files and serve as Json object through rest service. - Learn docker, docker compose
