2017-11-06 - ISDA Team - Stand-up Meeting Notes

Who	Planned - Monday	Accomplished - Friday
Bing Zhang		
Benjamin Galewsky	Complete Kubespray Kubernetes Pull Request Write up marketing info for NDS Workbench Get Brown Dog Clusterman App in Bamboo with automated testing, code coverage, and deployment to Dev server	
Christopher Navarro	Cover Crop Status meeting Review required web-app changes to run experimental field Open issues to reach Dec. 2nd functionality target Ergo/KISTI Discuss next steps, review requirements to release Ergo 4.0.0 IN-Core Continue working on v2 and set development priorities Review earthquake hazard model to decouple specific earthquake from mathematical model	Cover Crop Helped collaborators compile DSSAT 4.7 and compiled/installed 4.7 on cover crop VM Updated VM with latest weather converter tool, updated DSSAT model and ran test run field with updated model/weather data, prepared inputs and added them to VM IN-Core Updated building damage python script with latest pyincore changes Provided text for IN-CORE paper Travel expense report Other - DataWolf demo, lightning talk, DataWolf 4.1 release build finished
Craig Willis	NDS (Sprint 35) SC17 demo script/video Website updates Auth design Whole Tale Setup monitoring via OMD TERRA-REF Finalize Workbench cluster configuration Pipeline support	NDS Drafted demo/video Website updates pending PA approval First round auth design Whole Tale Preliminary monitoring config TERRA-REF Fixed MTU issue (fingers crossed!) Pipeline running
Gregory Jansen		
Htut Khine Htay Win		

Indira Gutierrez Polo	GLM Dissolved Oxygen Fix issues in IE11 In-Core	GLM Fixed issues in IE11: Markers showing and the links working Fixed lines around radio buttons in IE11 Helped Michelle with doing a single fetch for the regions trends data InCore Analysis UI
Inna Zharnitsky	BD-1820 finish, merge with develop BD-1860	Both tasks finished, PR created and merged.
Jing Ge	Document performance testing result for Uber data (docker and normal physical machine) Study elasticsearch and build CaseOLAP instance for KnowEnG CGC testing	 Ran 1 set of performance testing for Uber data and documented the result in Google spreadsheet Did CGC testing and document my feedback in Google document, reported back to the person who in charge of this project. Started to read document elastic search.
Jong Lee		
Kenton McHenry	Brown Dog online materials review/cleanup SC panel prep HR	 NIH National Cancer Institute SSA Newsletter SC panel prep HR
Luigi Marini	 GLM release and preparation for EPA visit BD bug fixes, authorization in fence/clowder Clowder release PSP data ingestion 	 IMLCZO lab analysis space and presentation GLM release and preparation for EPA visit PSP data ingestion
Marcus Slavenas	gltg standup dev version of distributed system with illinois instance started vbd decide on technology for app and start working on it	 gltg stood up dev distributes system with gltg-dev as nginx proxy vbd decided on technology flask, openlayers
Maxwell Burnette	 plantCV testing and run on two new experiments hyperspectral run on 2016-2017 generate soil mask on 04-01 hyperspectral test dataset ongoing FLIR + fullfield progress evaluation 	 heightmap laser3d scanner running plantCV pipeline deployed hyperspectral postponed due to calibration issues scripts for dataset count summaries
Michal Ondrejcek	MDF	MDF

Pramod Rizal	Explore enhancements and investigate some isolated issues with Mesos cluster performance due to auto-scaling in AWS Domain transfer from knoweng.org knoweng. illinois.edu Infrastructure Support	Explore enhancements and investigate some isolated issues with Mesos cluster performance due to auto-scaling in AWS (W.I.P.) Infrastructure Support
Rob Kooper		
Sandeep Puthanveetil Satheesan	BD Identify important tasks for the current sprint and work on them IARP Contiue work on populating Clowder demoinstance Issue pull request on advnaced search feature improvment CCROP UI modifications related to bug fixes and new feature about flexible termination dates Identify the next priority tasks and start working on them	
Shannon Bradley	 Update Seating in Hoteling Conference Room Actually file my travel report Nebula Nodes for TERRA HR Resumes / Interviews Follow up on Training ideas Prep Agile outline and presentation Brown Dog Report Sprint Management 	New seating name tags - still need to update "official" list TEM done Nodes ordered Hr tasks - check More contributions to training / Onboarding page BD Report - last section should be in Monday Sprint audits and things JIRA Workflow/Sprint page changes started Google Analytics / GLTG
Yan Zhao	BD jupyter login. GLM hackathon	BD ippyter login. try jupyter with R kernal GLM hackathon
Yong Wook Kim	Create the method to automatically upload dataset to geoserver in Pyincore Create automatic dataset upload into geoserver in data repository service Process soil data and upload into geoserver	Made python automation code for uploading all the dataset in the webday to geoserver Created the data service api to automatically upload the shapefile to geosever when new dataset is ingested Soil data cropped and uploaded to geoserver
