Welcome to the Software Directorate!

This page is out of date - please view the actively maintained page here. (June 2021)

Congratulations on becoming a part of our team!

Our whole group welcomes you to the Innovative Software and Data Analysis group at NCSA.

We are looking forward to creating great things with you.

Welcome aboard!

- Who to contact if you are sick, want to request vacation, etc
    - Vacation: Talk to your team lead - will the time impact deliverables for the group?
    - Vacation and Sick Time - email sd@lists.illinois.edu to let people know you will not be in the office
    - Update your Outlook Calendar with Vacation/Days off - This way people who create meetings will be able to see if you are available
    - See who is in the Office - update if you are going to be out please for the team - Calendar

    - Place time in Savannah - VSL - https://internal.ncsa.illinois.edu/mis/vsl/
- A list of all the pertinent list serve email addresses, etc.
    - isda@lists.illinois.edu - emails the whole team
- Make note of any weekly meetings to be attended
    - We meet as a group on Monday's at 9:30 to do a Weekly Kickoff - what is the primary thing you are going to be working on for the week on your projects?
    - We meet as a group on Friday's at 10:00 for a weekly round up of What Rocks (what went well this week) and What Sucked (what didn't go well this week) and "Lightning Talks" or presentation of cool stuff people are working on or learning about
    - You will have weekly meetings for each group you are assigned to - work with Shannon Bradley to make sure you are added to team invites
- Weekly Reporting
    - The ISDA team has a Confluence Page for Weekly Task Management - Please list what you are going to be working on each week and what you got done each week in the update page
        - The pages are titled: 201X-XX-XX - ISDA Team - Stand Up Meeting Notes
        - Link: 2018-02-26 - ISDA Team - Stand-up Meeting Notes
- Quick Insurance Information - Quick Insurance Information
- Overview of ISDA as a Group and some of our Projects
    - ISDA reading: ISDA Flyer, ISDA Group Information, Staff Information, Current Projects, Active Software
    - Watch tutorial videos: http://ssa.ncsa.illinois.edu/isda/outreach/education-training-and-outreach/
    - Overview of Technical Processes and current topics: Technical Steering Committee

Setting Up Your Computer

Make sure the following programs are loaded:

- Getting Started - Instructions for Installation of: GettingStartedGuide-computer_setup.pdf
  - Microsoft Office – including Skype for Business
  - Crash Plan - should be on your device when you receive it
- Google Docs - you can link your U of I account to Google Apps
  - https://techservices.illinois.edu/services/google-apps-illinois/details
- Box App - for secure document sharing
  - University of Illinois Box - https://box.illinois.edu/
  - Application - to keep your files synched with your box - https://www.box.com/resources/downloads
- LastPass - work with Shannon to submit a ticket to Security for access
  - https://wiki.ncsa.illinois.edu/display/ITS/LastPass
- Internet and Network Access is configured based on your University ID
  - https://wiki.ncsa.illinois.edu/display/HELP/Getting+Started+at+NCSA+Home
  - **Accounts at NCSA:**
    - Kerberos
    - Your Windows Login
    - University Accounts
  - Connecting to IllinoisNet or NCSANet Wireless SSIDs

    If you need wireless access:

    - For access to NCSA project resources, networking devices and printers you need to be connected to NCSANet
    - For ease of roaming around campus you should connect to the campus-provided IllinoisNet.
    - To get this setup follow the instructions https://answers.uillinois.edu/illinois/page.php?id=49046
      Anyone in the Desktop Support Team can also assist you with connecting to the network. To use this network you will need to know your University of Illinois NetID and Password.
  - Wired Access
    - Up to (3) 10/100/1000Mbps PoE ports per user for office systems. Default is only (1) - Network ports activated by request - email help+its@ncsa.illinois.edu
    - If your machine requires a USB ethernet connector/dongle you will need a driver for it to work: http://www.asix.com.tw/products.php?op=pItemdetail&PItemID=131;71;112
- Printer Setup
  - For full instructions see the NCSA Wiki: https://wiki.ncsa.illinois.edu/display/ITS/Printing
    - https://wiki.ncsa.illinois.edu/display/ITS/MacOS+Printing
    - https://wiki.ncsa.illinois.edu/display/ITS/Windows+Printing

Login Accounts and what they work for:

ncsa vpn == ncsa password (kerberos/internal)

ncsanet == illinois password (is managed by illinois)

illinoisnet == illinois password

Kerberos	OpenSource (in the process of moving to LDAP)	Illinois
internal.ncsa.illinois.edu	https://opensource.ncsa.illinois.edu/bitbucket	Logging in to IllinoisNet
jira.ncsa.illinois.edu	https://opensource.ncsa.illinois.edu/confluence	Positive Time Reporting
wiki.ncsa.illinois.edu	https://opensource.ncsa.illinois.edu/jira	VSL
Logging in to NCSANet	https://opensource.ncsa.illinois.edu/xxx	
VPN to NCSA (https://wiki.ncsa.illinois.edu/display/NetEng/Virtual+Private+Network+%28VPN%29+Service)		
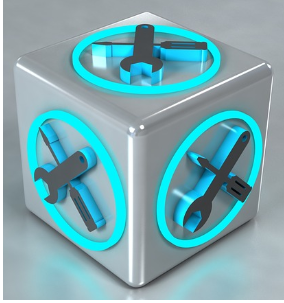

ISDA Tools

- Confluence - or appropriate wiki / documentation repository (could be GoogleDocs or Box for some teams)
    - Work with Shannon Bradley and Rob Kooper Luigi Marini or Kenton McHenry to be added to the right ncsa ldap group for access
    - Opensource setup: https://identity.ncsa.illinois.edu/join/K4PY3Q3DVL
    - Opensource: https://opensource.ncsa.illinois.edu/
    - NCSA Internal: https://wiki.ncsa.illinois.edu/
- JIRA - or Trello, GihHub Issues, ZenHub etc.
    - Opensource credential will provide access to JIRA
- Slack -
    - sign-up: go to https://ncsa-at-illinois.slack.com/signup and sign up with your illinois email address
    - work with Shannon Bradley to get added to the right channels
- Development IDE and tools: JetBrains Toolbox: https://www.jetbrains.com/toolbox/app/
    - Work with team lead/ Rob Kooper for license
- Bitbucket - GitHub, ZenHub, or appropriate repository
- Team Cloud access - Nebula, AWS, GCE, etc
