

Model Flow

process	run script	Action	code or files	e.g.	Details
get forecaste	/home/nan/WNV_WX /Not_smooth/run. get_forecast				Daily gets forecast data and saves to data for fortran directory. Add files kept, but is every day is needed? Need to check code
		pull data for today	wget http://sats.nws.noaa.gov/~mos/mos/wnv/IL_divisions_all.csv		
		rename IL_divisions_all.csv	cp IL_divisions_all.csv ILCD_\$yearmody	ILCD_2 0170902	
		all forecaste data copied to run dir (data)			
get weather	/home/mtimlin/estSTCD /estCDwestnile/estCD.csh			1109	
		4 (really only 3) curl calls and then parses into	http://data.rcc-acis.org/GridData		takes a while
		save in	/home/mtimlin/estSTCD/estCDwestnile/estCD. dir/[estCDn, estCDx, estCDt, estCDp]		
		parse1 creates files 110x.new	./parse1 ./parse2		
run model	/home/nan/WNV_WX /MIR_model/run. cmp_n_nweek	runs model
