## **Release Workflow**

Future releases are planned in Roadmap.

## Steps:

- 1. Create release branch (see Gitflow Workflow)
- Send out email to clowder@lists.illinois.edu
  Update version number in the following files:
  - a. CHANGELOG.md
  - b. project/Build.scalac. doc/src/sphinx/conf.py
- Test and fix bugs on release branch
  Make pull request against master
  Review mongodb updates
  Merge pull request

- 8. Tag master with version number
  9. Merge master into develop
  10. Check auto-deployed instances

- 11. Build Sphinx documentation and deploy
- Update landing page
  Send out email to clowder@lists.illinois.edu
