## **Release Workflow**

Future releases are planned in Roadmap.

## Steps:

- 1. Create release branch (see Gitflow Workflow)
- 2. Send out email to clowder@lists.illinois.edu
  3. Update version number in the following files:
  - a. CHANGELOG.md

  - b. project/Build.scala c. doc/src/sphinx/conf.py
- Test and fix bugs on release branch
   Make pull request against master
   Review mongodb updates
   Merge pull request

- Tag master with version number
   Merge master into develop
   Check auto-deployed instances
- 11. Build Sphinx documentation and deploy
- 12. Update landing page13. Send out email to clowder@lists.illinois.edu
