Explore Page and Detail Page V3 - Features

Note: Bold elements are priorities for GLM in May 2018.

Explore Page

Items with JIRA ticket when available:

- Being able to toggle the sites using the left navigation. If you close a source, you can hide them in v2.
- On GLTG and IMLCZO there are different options than explore by source: Explore Data by watersheds, feature watersheds, explore by categories.
- **Organize the pills in the left navigation by lake?** ➕ ~~GEOD-1086~~ - Explore page Left Navigation Updates `DONE`
- **Set order of the cards/sources on the left navigation. It should be by configuration instead of alphabetically. We want water quality first for GLM?** ➕ ~~GEOD-1086~~ - Explore page Left Navigation Updates `DONE`
- Bug with sensors disappearing when you go back to the explore page from the detail page ⬛ ~~GEOD-972~~ - Explore Page popup issue `DONE`
  - Fixed in ⬛ ~~GEOD-1088~~ - Clicking on a pill in explore page doesn't open the popup `DONE`
- Optional Info Boxes for each Source ☑ ~~GEOD-1090~~ - V3 Optional Info Buttons on the Explore Page `DONE`
  - The same popup information needs to be available in the detail page and the About Page.
- Optional User Choice to disable Clustering on the Maps ☑ ~~GEOD-1091~~ - V3 Maps User Disable Clustering `DONE`

Detail Page

Items with JIRA ticket when available:

- **Have different parameters on each tab**
  ➕ ~~GEOD-895~~ - Handle configuration for parameters on different tabs (Depth, nutrients, biology) `DONE`
- Have the time series graphs
  - Allow all graphs to show the same time frame (is this a desired thing for IMLCZO or should it be a configuration?)
  - Color code each graph with the parameters.
  - Have some configuration for the colors of the graphs?
- **Have more details than the title. Add the source before the name of the site and an icon with the color ?**
  - **Planning on adding this to GEOD-895**
- **The names of the tabs are not configurations right now. They vary by source. They can be: Contaminants (Fish Program), Nutrients (EPA), Tributary Loading (Heidelberg) …**
  - Planning on adding this to GEOD-895
- **Handling different binning. Some configuration where the source is binned with seasons or the other scaling binning.**
- Box and whiskers for time series ☑ ~~GEOD-1094~~ - V3 Detail Page Add Box and Whisker `DONE`
- **Time filtering** ➕ ~~GEOD-873~~ - Date and Season controls for detail page `DONE`
- **Download data links (Apply the selected parameters criteria and the data range)**
  ➕ ~~GEOD-878~~ - Create download button for detail page `DONE`
  - **May need GEOD-873 or be updated after GEOD-873**
- **Information buttons optional next to: Selected Parameters, Time Series. Box and Whiskers**
  ☑ ~~GEOD-1089~~ - V3 Optional Info Buttons on the Detail Page `DONE`
- Update mini map to show an icon instead of a dot, and have the dot match the source color.
  - Michelle Pitcel did this while working on ☑ ~~IMLCZO-230~~ - Mobile Detail Page Improvements `DONE`
- Lines on Graphs Optional ☑ ~~GEOD-1093~~ - V3 Detail Page Graph Lines Optional `DONE`

GD3 Explore Epic Issues: ⚡ ~~GEOD-865~~ - GD3 Explore and Detail pages `DONE`
