

2018-06-07 NDS Project Status

- Workbench updates:
 - USDA/NIFA DataDrivenAg workshop (2/28)
 - Hack Illinois – GlobusWorld presentation
 - Globus Auth + Personal Endpoint
 - Led to deeper involvement in MDF
 - More engagement with JH
 - Used for 2018 PI4 Workshop
 - Currently used for UW iSchool Data Curation course. Hoping to work into IMLS proposal, if possible.
 - Used for upcoming ETK UNAM workshop (6/11)
 - BD Hubs presentation
 - Adopted by NSF Brown Dog project for tutorials/outreach (in progress)
 - NCSA is establishing `workbench.ncsa.illinois.edu` for internal software
 - Commercial cloud support
 - Actively working on Workbench support for AWS
- ESIPhub pilot
 - Easily-deployable JupyterHub/Kubernetes template for ESIP workshops
 - ESIP membership note
