Eat the Frog!

"If it's your job to eat a frog, it's best to do it first thing in the morning. And if it's your job to eat two frogs, it's best to eat the biggest one first."

In more practical terms, the "frog" is your worst, most unsavory task of the day. You know, that one thing you're dreading.

This daunting task is probably also your most important, and the one that you're most likely to procrastinate on.

If you have two frog tasks, start with the one you're least excited to do.
