2019-02-18 Design Meeting notes

Date

18 Feb 2019

Attendees

- Yan Zhao
- Bing Zhang -
- Sandeep Puthanveetil Satheesan
- Luigi Marini
- Kenton McHenry -
- Rob Kooper
- Gregory Jansen -
- Shannon Bradley -

Agenda

Time	Item	Who	Notes
		Tools Catalog	Clowder instances might want to also utilize the Transformation Center/Catalog Could include contacts for non-opensource resources Review: Tools Catalog Version 2.0 Yan #1 Sandeep #2 Bing #3 - form, login, maintain session in flask Administrator and Contributor can be picked up next Technology Someone needs to figure out LDAP library for login - Bing Background: https://github.com/jupyterhub/ldapauthenticator/blob/master/ldapauthenticator/ldapauthenticator.py LDAP for jupyter(python) May need roles/groups - Admin, Normal User OR we only have users and in config for app have emails that are admins - disadvantage is you have to reboot app - or store in database Admin is delete, maybe update
		Greg	I finally got my results into the portal for some tests last week. Doing some work on the viz next, but also working on a paper this week, due end of month. w/regard to testing, I plan to re-run the entire batch of existing tests, one at a time. This is the kind of thing you'll see. This is for a test run last week. The viz isn't currently good at showing the errors or gaps in BD functionality. So it's just graphs. http://browndog-testbed.umd.edu:3000/dashboard/snapshot/e9coGS4KJeUrc6P7Pd1Wtmqosiniz2wd?orgId=1 Will be working on getting some more up and work on the format and labels.
