

2019-06-19 Brown Dog Meeting notes

Date

12 Jun 2019

Attendees

- [Yan Zhao](#) - absent
- [Sandeep Puthanveetil Satheesan](#) -
- [Luigi Marini](#) -
- [Shannon Bradley](#) - absent
- [Mark Fredricksen](#) -
- [Rob Kooper](#) - absent
- [Kenton McHenry](#) - absent
- [Gregory Jansen](#) - absent
- [Dukyun Nam](#) - absent
- Deren Kudeki - absent

Discussion items

Time	Item	Who	Notes
		Yan	Yan Zhao any updates? Did you see the email from the hydroshare people about client documentation?
		Sandeep	<ul style="list-style-type: none">▪ Started working on CSV dataset aggregator extractor.▪ Updated simple extractor documentation based on Don's feedback.
		Mark	<ul style="list-style-type: none">▪ Needs access to edit plan in Bamboo.▪ Luigi Marini Gave access to edit plans and fixed bd-transformations-catalog plan.▪ Need to upload mongodb dump to central mongo. will store it as `transformations-catalog-dev`▪ No progress on windows VM. Will work on it while Rob is out.
		Luigi	<ul style="list-style-type: none">▪ Finished PR search pages on Clowder, merged to develop▪ Clowder 1.7 release▪ Upgrading Sphinx documents<ul style="list-style-type: none">▪ Can't get it to build on bamboo because it's defaulting to python2, I think I know what I can try next▪ The CZO use case requires us to create an instance of Clowder with data from criticalzone.org. Need to write simple scraper to populate Clowder instance.▪ Need to populate mappings for semantic annotation service. Units in standard name or separate? Should a dataset have a default unit for specific physical variables?▪ Don said he has successfully written a simple extractor. He also provided feedback in Clowder slack and Sandeep was able to fix the documentation. Yay!
