

# 2019-07-12 Clowder Meeting notes

## Date

12 Jul 2019

## Attendees

- [Shannon Bradley](#)
- [Luigi Marini](#)
- [Rob Kooper](#)
- [Sara Lambert](#)
- [Bing Zhang](#)
- [Sandeep Puthanveetil Satheesan](#)
- [Maxwell Burnette](#)

## Goals - Technical Meeting

- 1<sup>st</sup> Friday of Month will be webinar open to anyone with the link (will be on the Clowder main website).
- Other 3 weeks will be technical meeting for developers to discuss code, planning, etc.
- Will start inviting more people - and we can send link to people on individual basis for invitation
- CSSI - we now have some funding to pay for hardening of Clowder outside of work done by project specific work

## Discussion items

Item	Who	Notes
	Luigi Marini	<p>release 1.7.0 and 1.7.1 were both release this week</p> <p>1.7.0 requires an elastic search re-indexing - so if you have a production instance that you maintain make sure it is working as intended</p> <p>Fixes to new search is being working on which will be 1.7.2</p> <p>additional things related to archival are also there which may be a 1.8 soon</p> <p>Two weeks is All Paws - Sandeep driving 1 and Luigi driving other car - will need to coordinate pick up places</p> <p>have to coordinate dinner and who stays and who goes home early</p> <p>There will be a zoom meeting - and some people have already said they are attending remotely</p> <ul style="list-style-type: none"><li>• Boston</li><li>• BNL</li><li>• NASA</li><li>• NGA</li><li>• USGS</li><li>• NIST</li><li>• Purdue</li><li>• Univ of Michigan</li></ul> <p>Need to go back and get in habit of updating this page: <a href="#">Roadmap</a></p> <p>clowderframework.org - will be purchased on Monday - will point to clowder.ncsa</p> <p>last call for name of github - discussion around "-" github.com/clowder-framework vs github.com/clowderframework</p> <p>voted - 6 for dash ... one for no dash</p> <p>what is public - should be mature and maintained first - default is not public and we choose which ones are manually made public</p> <p>let us know which ones should NOT be put on github</p> <p>GitHub discussion - should we move completely away from Opensource</p>
		<p>Bing presenting on Clowder at the CUAHSI meeting</p> <p><a href="http://www.cvent.com/events/2019-cuahsi-conference-on-hydroinformatics/event-summary-ac42882aaf9449b1ae6cf873183686da.aspx">http://www.cvent.com/events/2019-cuahsi-conference-on-hydroinformatics/event-summary-ac42882aaf9449b1ae6cf873183686da.aspx</a></p>
		<p>Governance Process: <a href="#">Governance</a></p> <p>Review process</p> <p>Add Max to committers list</p>

	Max	<p>talk about new search process PR - CATS-1011</p> <p>doing some clean up as well for duplication and things</p> <p>using patterns that are not scala ish - so redoing some of these as well</p> <p>Discussion - hierarchical log - spotify paper - Bing interested in implementing - he will share paper</p>
	Mike	<p>updated s3 archiver and works with mino - checking s3byte with other regions and it appears to be working</p> <p>Luigi: told Chen to talk to Mike about moving to glacier and how that is done (mentioned in Smile meeting)</p> <p>Add archive button - need to know who to add for reviewers - CATS-1007</p> <p>Loop on an interval relies on this as well</p>
