Date

17 Apr 2020

Attendees

- Luigi Marini - present
- Bing Zhang - present
- Shannon Bradley - present
- Todd Nicholson - present
- Sara Lambert - present
- Rob Kooper- present
- Mark Fredricksen - present

Discussion items

Time	Item	Who	Notes
	Started putting videos up on YouTube	Luigi	https://www.youtube.com/channel/UC3Wkm8t146gSTYyzjSR600g/featured
	Getting a lot of questions on Slack	Luigi	Make sure to read, review and answer them regularly Make sure to update the docs in the Clowder Sphinx documentation with clearer info which answers the questions https://clowder.ncsa.illinois.edu/docs/
	Have a release almost ready to go- 1.8.3	Luigi	Todd has issues pushing to release ... Luigi will check permissions
	Question from Colter on Metadata	Luigi	Metadata - after a certain depth in document it would not work - theory will not work after a certain depth (depth 4 or 5) might need to change in future
	PR script to create flask/geoserver ...	Bing	is running on dev - Sandeep reviewing
	Google season of docs	Rob	Unclear how students/programmers can write/update docs - do they just write or do they learn the program and document Starts after Summer of Code - more open to technical writers take all the various sources we have for Clowder - and put into a single source document - help them do examples - one focus on Jupyter notebooks for examples - Admin section of docs - User Section of docs May or may not have coding/technical knowledge - but good technical documentation skills Get writers involved in Opensource
	Update User Profile	Mike	User profile - shown at industry meeting - add data sets to the profile page Templates were showing footers multiple times - share code with group to find root cause
