

2020-06-19 Meeting notes

Date

19 Jun 2020

Attendees

- [Luigi Marini](#)
- [Rob Kooper](#)
- [Maxwell Burnette](#)
- [Sara Lambert](#)
- [Mark Fredricksen](#)
- [Todd Nicholson](#)

Discussion items

Time	Item	Who	Notes
	Updates	Luigi Marini	• 1.9 released, requires a reindex • Clowder is now officially on github - do branches, PRs, issues there. • There are a few PRs that need to be migrated to GitHub. • 2.0 updates to play are continuing but work is hard going. • dockerization of jekyll stuff • Point clowderframework.org to github pages, set up demo.clowderframework.org ncsa demo site
		Maxwell Burnette	• still finishing folder download + marked files download • looking at adding tests for search behavior in 2.0 • elasticsearch thread crashing - how do we make sure it is resolved?
		Rob Kooper	• Working team for containerizing demo site stuff on kubernetes • added thumbnail id to file returned from api https://github.com/clowder-framework/clowder/pull/9
		Sara Lambert	• Azure AD integration work - waiting for answers • Tracking extractor job executions with unique IDs per extraction job
		Mark Fredricksen	• Transformation catalog has been transferred to github ◦ I included active branches and open PRs ◦ Have not yet imported all the open issues • Testing a docker compose to ease local testing for the catalog ◦ Hoping to get that uploaded to github today with a PR
		Todd Nicholson	• Klara Nahrstedt at CSL might have a student available to work on the mobile app.

Action items
