## 2020-09-18 Clowder Dev Meeting notes

Date

18 Sep 2020

## Attendees

- Luigi Marini absent
- Maxwell Burnette
- Sara Lambert
- Todd Nicholson absent
  Bing Zhang
- Mark Fredricksen
- Michael Bobak
- Rob Kooper absent
- Elizabeth Yanello
- Sandeep Puthanveetil Satheesan
- Shannon Bradley absent

## **Discussion items**

Who	Notes
Max	<ul> <li>PR for adding numeric and date fields to Elasticsearch. Previously searched for strings only. Now will add  dates, numeric.</li> <li>ODM extractor updated - add fast-orthophoto flag as UI parameter?</li> <li>Report download failing again for files on SIMPL - same reason .js script is failing? Need to fix asap</li> <li>Push for PyClowder.</li> </ul>
Mark	Created a communication post for extractors catalog and projects are being retrofitted.
Mike L.	<ul> <li>PR for Extractor Catalog: Job History features         <ul> <li>Forgot "My Jobs" / "All Jobs" count columns need to revisit</li> </ul> </li> <li>Looked at Bing's PR for the viewlogs feature         <ul> <li>Can't test without Graylog, wiki page with installation instructions is locked down</li> </ul> </li> </ul>
Bing	<ul> <li>View graylog PR is under review. Made a draft pr for the view metrics feature.</li> <li>demo the draft pull request of extractor view metrics (e.g., view metrics ncsa.image.metadata).</li> <li>Users are not able to click the link to view the logs if the log service endpoint is not defined. The empty extractor prefix is fine.</li> <li>When we do a query, we need to describe the prefix of the extractor service.</li> <li>Sara Lambert need to have feedback from users about exactly what they wanted to see. I will ask them for more detail</li> <li>We should keep one version and one record, rather than register many versions. It could be confusing, but we may one to keep a history of past versions (with different names).</li> <li>On the instruction page (Graylog and its configuration in Clowder proxy.) there is a padlock, if it is unlocked, anyone can edit.</li> </ul>
Mike B.	<ul> <li>Have clowder auth &amp; api based text-search on web-ui entered datasets</li> <li>Fixed problem /s w/api POSTing jsonLD metadata</li> <li>Have colab notebook w/txt-search: general&amp;on metadata fields</li> <li>Will add metadata post 2NB,but run near jsonLD cache into new open instance</li> <li>Clowder should work for search &amp;can get 2ndry use later, w/post search metadata</li> <li>Council of Data Facilities/Web based CSV</li> <li>Can we increase the time out? It's a time sucker to have to start over every six hours.</li> </ul>
Sande ep	<ul> <li>MBD Conference in October.</li> <li>Next round of repositories to become open source (with proper documentation)</li> </ul>
Shann on	• absent
Lisa	Nothing to report except that you guys ROCK!

Action: Mark Fredricksen write issue for adding visualization to catalog https://github.com/clowder-framework/catalog/issues/19 https://github.com/clowder-framework/clowder-framework.github.io/pull/3
