

2020-10-02 Clowder Dev Meeting notes

- Date

02 Oct 2020

Attendees

- [Luigi Marini](#)
- [Maxwell Burnette](#)
- [Sara Lambert](#)
- [Todd Nicholson](#)
- [Bing Zhang](#)
- [Mark Fredricksen](#)
- [Michael Bobak](#)
- [Rob Kooper](#)
- [Elizabeth Yanello](#)
- [Sandeep Puthanveetil Satheesan](#) - absent
- [Shannon Bradley](#) - absent

Discussion items

Who	Notes
Luigi	• We did a 1.11 release and a pycrowder release this week. • We are trying to get an extractor release next week and will need a lot of PR's • Extractor View Metrics have updates • Migration code with Mongo is not working with extractor field - perhaps drop the spaces. Once I push this, please test. • Constantinos from Cyprus is asking how to handle zip files (could be a bug) • Everyone take a look at the Main Branch prior to release mid-next week. • Will be adding examples in clowder jupyter - both generic and technical will be helpful to all • Update README when you add a notebook
Max	• Some discussion of date handling for metadata search in https://github.com/clowder-framework/clowder/pull/76 • Updated PR for wireframe extractor page to add filters, planning to add more before release next week • Have metadata parsing from XML json file working for RDA ingest, last remaining parts are the streaming of remote files and folder recreation • Elasticsearch format - date alternate format gives an error. Dates should have hyphens rather than slashes. We could have a date picker. • There is a date and time widget which should trigger the date picker. • Syngenta does not have this picker • Maxwell Burnette create a follow up issue • Recreating folder structure. PR should be ready next week
Mark	
Bing	• Will fix the conflicts in the branch extractor
Mike L.	• Reviewed a bunch of open PRs • Fixed merge conflicts in open PRs • Sara Lambert create an issue for date picker/metadata - https://github.com/clowder-framework/clowder/issues/93
Rob	• pycrowder releases 2.3.2 and 2.3.3 • bug fix for heartbeat • helm chart release 0.6.1 (soon 0.6.2) • includes clowder 1.11.1 • auto PR for extractors based on pycrowder release • Ratings and Comments will be removed during this release. • In clowder-framework/extractors-clamav, Rob has created an automatic update to the latest version of pycrowder and create PR's. • This should be in documentation to advertise this.

Mike B.	• Got CDF repos in clowder spaces, w/search etc, but a way to go, so • Created proposals wiki page to get it to be more like present search • Have assert code in github & will get crawling as code in ec-github as well • Crawl is a few scripts being turned into code incl dealing w/sitemaps etc. • tating to look back at clowder code to fix openness vs move to 2ndry use • People can refer to bullet points to make comments. • Using notebook for query and will add to github. • Please make a PR against the Clowder Jupyter notebook • Promoted Metadata in Space Displayed on Right Panel
Sandeep	absent
Shannon	absent
Lisa	• Who to invite to 10/23 Webinar - Change to November 6th for webinar

- ☐ Action: [Mark Fredricksen](#) write issue for adding visualization to catalog <https://github.com/clowder-framework/catalog/issues/19>
<https://github.com/clowder-framework/clowder-framework.github.io/pull/3>
- ☒ Sandeep Puthanveetil Satheesan Create an issue for the calendar control
- ☒ ~~Sara Lambert Create an issue for radio buttons vs. checkbox~~
- ☐ [Elizabeth Yanello](#) Set webinar for November 6, 2020
- ☒ Shannon Bradley When is the next newsletter?
- ☒ Shannon Bradley Please advertise 11/6/20 on Twitter and Blog
- ☒ Shannon Bradley When is the next newsletter going out
