Who	Notes
Luigi	<ul style="list-style-type: none"><li>▪ CSSI Steering Committee update presented by Lisa &amp; Shannon</li></ul>
Max	<ul style="list-style-type: none"><li>• Created wiki page for workbench CDDR planning: <a href="#">Clowder Workbench Integration (formerly Tool Launcher)</a></li><li>• RabbitMQ split into RabbitMQMessageService and ExtractorRoutingService - PR. There is too much logic in RabbitMQ. We need a deliniation between the application and the branch.<ul style="list-style-type: none"><li>◦ Now to implement the events themselves</li></ul></li><li>• Looking at some search bugs reported in Slack - issues with pagination.</li></ul>
Mike L.	<ul style="list-style-type: none"><li>• Splitting RabbitMQ service. Need to hook up with Max's code</li><li>• Working on the que for Echo and MongoDB (sidetracking events)</li><li>• Amped up amplitude to make a leaderboard. No way to track this in the API and will move this into the backend.</li></ul>
Todd	No updates. Running extractors using anaconda.
Michael J	Research on API's to send backend events to google analytics.  The template made with Syngenta is worth noting using Python - checks that deployments are up to date. Would like to make the template more robust.
Bing	working on flask server: endpoint to post statistic data to RabbitMQ. endpoint to check clowder healthy. flask yml file updates. Will check with Max on accuracy before uploading
Mike B.	=EarthCube:  ·Wrote <a href="#">slides</a> on the system, giving today. Will be presented in next SD meeting  ·Have data/tool facet, checking on data  ·Prepping to do data-tool linkages  Sparkle endpoint.
Rob	No updates
Sandeep	No updates. Best practices putting issues in one place.

Mark	absent
Shannon	<p>Newsletter started - let me know if you have any article ideas</p> <p>Ticket created with Marketing on 1/13 - Barb assigned 1/15</p>
