

# 2021-02-12 Clowder Dev Meeting notes

## Date

12 Feb 2021

## Attendees

- [Luigi Marini](#)
- [Maxwell Burnette](#)
- [Sara Lambert](#)
- [Todd Nicholson](#)
- [Bing Zhang](#)
- [Mark Fredricksen](#)
- [Michael Bobak](#)
- [Rob Kooper](#)
- [Michael Johnson](#)
- [Elizabeth Yanello](#)
- [Sandeep Puthanveetil Satheesan](#)
- [Shannon Bradley](#)

## Discussion items:

Newsletter sent out 2/10/2021

Clowder All Paws Virtual Conference June 21 to June 24 - 3 hour sessions (some sessions may run side by side).

Clowder 2.0 Update

Googles Summer of Code

Storing Data on Clowder inperpetuity

| Who       | Notes                                                                                                                                                                                                                                                                                                                                                                |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Luigi     | <ul style="list-style-type: none"><li>• Submission to remote XSEDE HPC resources</li><li>• Webinar went well, going up on YT</li><li>• Producing 2-minute Clowder video for EOH this year</li><li>• Clowder All-Paws session planning<ul style="list-style-type: none"><li>◦ technical vs. disciplinary sessions</li><li>◦ prerecorded sessions?</li></ul></li></ul> |
| Max       | <ul style="list-style-type: none"><li>• RabbitMQ split PR &amp; activity monitor service repo</li><li>• Will be working on search improvements (sorting results by metadata fields)</li></ul>                                                                                                                                                                        |
| Mike L.   | <ul style="list-style-type: none"><li>• Amplitude / GA event consumers may not have all of the info we would get from the frontend. May be better to come up with a sort of hybrid solution for pushing both frontend and backend events</li><li>• Starting discussions about event consumer pattern, cutting down on duplicated code</li></ul>                      |
| Michael J |                                                                                                                                                                                                                                                                                                                                                                      |
| Bing      | update jclowder and health mointor.                                                                                                                                                                                                                                                                                                                                  |
| Mike B.   | faceted-search: dev: <a href="#">alpha.geocodes.earthcube.org</a> &finally got snapshot to <a href="#">alpha.earthcube.org</a> Thinking of GSOC <a href="#">ideas</a>                                                                                                                                                                                                |
| Rob       | <ul style="list-style-type: none"><li>▪ <a href="#">GSOC need ideas</a></li><li>▪ Publish <a href="#">helmchart 0.9.1</a></li><li>▪ GeoServer <a href="#">helm chart</a></li></ul>                                                                                                                                                                                   |

|         |                                                                                                                          |
|---------|--------------------------------------------------------------------------------------------------------------------------|
| Shannon | DataCite DOI's                                                                                                           |
| Lisa    | We need to spread the word about Clowder - CoE, ACES, LAS mailing lists. All Paws Webinar on 2/5/21 had 24 participants. |

## Action Items/To Dos:
