AmeriFlux Meeting notes for 2021-08-10

Yong Wook Kim

Jong Lee

Rob Kooper

Minu Mathew

Bethany Blakely

Katie Bowman

- The process will basically contains all the automation of the processes recorded in the guide documentation that Bethany sent to us
- The process should included the QA/QC as well.
- The code will be python in various reason unless the other language has huge benefit (OneFlux and PyFlux are made by python)
- Don't know what to use for now, could be OneFlux, PyFluxPro, or TOVI
- Minu and Yong Wook will follow the guide step by step and Katie will help to proceed the process
- Need to have an access to the file server to obtain raw data and Carl's group will take care of it
- Need to set up the slack channel?
