Yong Wook Kim

Minu Mathew

	To Do	Notes
Yong Wook Kim	☒ Create data acquisition ☒ review codes	
Minu Mathew	☐ L2 ameriflux ☐ Test other site data (maybe) ☒ Finalize L1 - formatting checks	Can make L1 formatting automation a bit more efficient - look at original variable name and Ameriflux variable name Do we need to check whether 'input sheet varaible name' exists in met data/ full output?
