[Diego Calderon](#)

[Gowtham Naraharisetty](#)

[Jong Lee](#)

[Elizabeth Yanello](#)

Agenda:

Status updates on your current and planned tasks

Project planning - what frontend/service tasks can create on Github based on what we know - we can add issues to add a Map/explorer view for displaying the sensors, simple popup or something to display sensor data, etc. We can probably borrow some ideas from geostreams/gltg.

Friday's Direct4Ag project meeting prepor #2, I'm thinking
