SMM meeting notes 02/08/24

08 Feb 2024

Chen Wang Yong Wook Kim

Status check

- Radiant volume delete stuck in detach mode Rob fixed.
    - Used 14 of 25 volumes need some explanation
- config.yaml file with docker-compose YWK Update needed
    - Use one centralized shell (or yaml) file to list all the components versions
    - Add a appVersion field; this will be referred to when update helm "**app version**"
    - Both "traefik" and "nginx" deployment can share this version control file
- Move charts folder to smm-deployment repo (exclude secrets)   YWK
- PR to create release GH action to push to artifact. YWK
    - Use README to list changes according to the format that GH action accepts
    - Keep the changelog as it is
    - Changelog version will be use to determine the "**chart version**"
- KPMG campus visit presentation Chen did.

Todos:

- Update smm argoCD repo to use the SMILE chart. Details see task: https://git.ncsa.illinois.edu/kubernetes/clusters/smm/-/issues/11 (YWK)
- Email double check if CMN 328 Social Media and Politics is using SMM on Feb/15 (Chen)
- Deploy to software-dev using the smm-deployment repo (Chen & YWK)
- Downloadable citations e.g. bibtex (Chen)

Backlogs:

- Check Twitter paid plan (Chen & Lisa Y)
- Rewrite AutoPhrase (Chen)
- Research on hosting documentation website
