Medici WebApp

The Medici WebApp makes it easy to manage your multimedia database (mmdb) right from your browser.

- Easily upload all of your photos, videos, and documents by dragging files into your HTML5 browser.
- Powerful extraction services read any metadata associated with your files and displays this information with the file for easy access.
- Tag -
- Leave a comment or start a discussion. Medici simplifies collaboration allowing you to discuss your data where everyone can see it.
- Download the original file for offline access.
