

2015-07-13 Standup Meeting notes

Who	Monday - Planned	Friday - Accomplished
Brock Angelo		
Edgar F. Black	<ul style="list-style-type: none"> • MSC <ul style="list-style-type: none"> ◦ Presentation for Norma Kenyon visit. ◦ discuss some issues related to extractors and web-application 	<ul style="list-style-type: none"> • MSC <ul style="list-style-type: none"> ◦ Presentation for Norma Kenyon visit. ◦ New PO1 monitor received and added to MSC web-application ◦ Meeting with Luigi and Yan discussing some issues related to extractors and web-application
Rob Kooper	<ul style="list-style-type: none"> • PEcAN <ul style="list-style-type: none"> ◦ add qsub code ◦ release VM • SEAD <ul style="list-style-type: none"> ◦ implement follow/unfollow space • Brown Dog <ul style="list-style-type: none"> ◦ implement orcidid login • NCSA <ul style="list-style-type: none"> ◦ test NCSA Open Stack ◦ migrate DESDM JIRA 	<ul style="list-style-type: none"> • PEcAN <ul style="list-style-type: none"> ◦ qsub moved to next version ◦ released RC2 • SEAD <ul style="list-style-type: none"> ◦ finished follow/unfollow space code ◦ started working on limit showing datasets/collections • NCSA <ul style="list-style-type: none"> ◦ Open Stack accounts created, waiting for green light • ISDA <ul style="list-style-type: none"> ◦ Migrating VM off honeydew -> beaker
Jong Lee		
Rui Liu		<p>Back from China vacation Tuesday night.</p> <ul style="list-style-type: none"> • Processed the emails. • BD: Discussed and made plan with Smruti regarding SC15 poster. • BD: Investigated DAP-DEV failures and had some initial findings. Mr. Lin CHENG in ISL created an account in their new Kilo OpenStack cloud. • EarthCube: The manual deployment of Clowder with Earthcube features on ecgs-dev were removed in the Medici -> Clowder switch, and Mostafa needed to show the features in a conference on Friday morning. Merged the latest develop branch with the Earthcube feature changes, and manually deployed again.
Kenton McHenry	<ul style="list-style-type: none"> • Prepare for Norma visit on Thursday. 	<ul style="list-style-type: none"> • Brown Dog report materials • Preparation for Norma visit • Brown Dog video
Luigi Marini	<ul style="list-style-type: none"> • Prepare NIH presentation for Norma's visit • Clowder pull requests • BrownDog JSON-LD GUI • Clowder documentation 	<ul style="list-style-type: none"> • MSC presentation done • Reviewed MSC code to date • No JSON-LD GUI • No Clowder documentation • Pull requests (from ~25 pull request down to ~17)
Christopher Navarro	<ul style="list-style-type: none"> • NIST - review pull requests, continue work on tornado analysis, test NIST-CORE builds • CyberSEES - conference call, help with birds eye view editor, prepare for July 27-29th hackathon • BrownDog - technical meeting, update DataWolf pull request based on comments 	<ul style="list-style-type: none"> • NIST - reviewed/commented/merged pull requests, discussed hazard analysis with Jong, Yong Wook will help with some of the GIS requirements, tested NIST-CORE builds • CyberSEES - attended conf call, sent Jong feedback on what's needed for the hackathon • BrownDog - attended tech meeting, updated pull request for DataWolf
Michal Ondrejcek	Vacation	Vacation

<p>Smruti Padhy</p>	<ul style="list-style-type: none"> • Brown Dog <ul style="list-style-type: none"> ◦ SC Poster ◦ BD.R Library ◦ Pull Request Review • SDN <ul style="list-style-type: none"> ◦ Review RAM based file systems - To write Linux kernel debug messages so that it can be to available to userspace for analysis ◦ Prove the classification algorithm correctness for maintaining the consistency of SDN routes updates for critical flows • Tuesday off • Friday afternoon off 	<ul style="list-style-type: none"> • Brown Dog <ul style="list-style-type: none"> ◦ SC Poster (Discussed with Rui Liu) and decided on the the set of experiments needs to be done ◦ Started Reading R ◦ Started pull Request Review ◦ Discussion with Qina for the use case • SDN <ul style="list-style-type: none"> ◦ Fixed the Linux kernel crash. Now the measurements can be taken for very high rate of flow. Started the Review of RAM based file systems ◦ Started working on the flow classification algorithm taking criticality into consideration ◦ Tuesday and Friday off
<p>Sandeep Puthanveetil Satheesan</p>	<ul style="list-style-type: none"> • CATS-71 (API endpoint) • Get started with VAT XSEDE presentation • Batch extractors in VAT Gateway • Pull request 	<ul style="list-style-type: none"> • Working on VAT XSEDE presentation • Fixed major issues with batch extractors in VAT Gateway • Started with pull requests
<p>Eugene Roeder</p>		
<p>Inna Zharnitsky</p>		
<p>Marcus Slavenas</p>	<ul style="list-style-type: none"> • IARP <ul style="list-style-type: none"> ◦ script for uploading files from library of congress to clowder • GLTG <ul style="list-style-type: none"> ◦ small fixes in preparation for release to production site next week • BD <ul style="list-style-type: none"> ◦ Clean up docs for annual report 	<ul style="list-style-type: none"> • IARP <ul style="list-style-type: none"> ◦ script uploads images to clowder <ul style="list-style-type: none"> ▪ puts LOC json into technical metadata ▪ sorts/processes LOC json and puts title and subject keywords info file tags • BD <ul style="list-style-type: none"> ◦ Annual Report: improved images and captions, some more condensing, resent to Jason • GLTG <ul style="list-style-type: none"> ◦ start improving usgs parser handling of missing data
<p>Indira Gutierrez Polo</p>	<p>SEAD:</p> <ul style="list-style-type: none"> • Implementing adding collections and datasets to multiple spaces <p>CyberSEES:</p> <ul style="list-style-type: none"> • Updating Open Layers Map to have controls similar to Brian Miles Template. Include Add/Edit/Delete functionality for green infrastructures. 	<p>SEAD:</p> <ul style="list-style-type: none"> • Implementing adding collections and datasets to multiple spaces <p>CyberSEES:</p> <ul style="list-style-type: none"> • Updating Open Layers Map to have controls similar to Brian Miles Template. Include Add/Edit/Delete functionality for green infrastructures.
<p>Jason Votava</p>	<ul style="list-style-type: none"> • Out of office Mon/Tue • Brown Dog Annual report • Contact MWRD regarding data transfer protocol • Confirm travel for NIST and BrownDog • Bonus: Begin presentation prep for NIST trip 	<ul style="list-style-type: none"> • Waiting on one more submission for Brown Dog annual report • Following up with MWRD on Tuesday • Travel confirmations expected this afternoon • No bonus round this week. Will carry over to next. • Last batch of GLTG useability completed • Timeline for NIST milestone 1 confirmed.
<p>Winston Jansz</p>	<ul style="list-style-type: none"> • Clowder ticket CATS-79–On (Admin) Roles page, list permissions by resource, for each role. • Clowder 86–Invite non-account holders to a Space. 	<ul style="list-style-type: none"> • Pull request issued for CATS-79. • Working on CATS-86.

<p>Yong Wook Kim</p>	<ul style="list-style-type: none"> • GeoTools update for ERGO 	<ul style="list-style-type: none"> • Coding for Tornado wind speed (ERGO-213, ERGO-214) <ul style="list-style-type: none"> ◦ create tornado path based on given coordinates ◦ create zones based on tornado category and width/length shrinking rate ◦ create shapefile of zone ◦ calculate wind speed of given coordinate
<p>Omar Elabd</p>	<ul style="list-style-type: none"> • ERGO-38 • ERGO-123 update • ERGO-222 • ERGO-60 	<ul style="list-style-type: none"> • ERGO-142 Update • ERGO-38 • ERGO-60 (In progress) • Pull-Request Updates • ERGO-222 • ERGO-123 Update • Sick on Monday and Wednesday morning off for Dr. appointment.
<p>Yan Zhao</p>	<ul style="list-style-type: none"> • SEAD <ul style="list-style-type: none"> ◦ Fix layout for profile ◦ Provide more information when user doesn't have permission to view a resource • MSC <ul style="list-style-type: none"> ◦ install and put data 	<ul style="list-style-type: none"> ◦ SEAD <ul style="list-style-type: none"> ▪ Fix layout for profile ▪ Provide more information when user doesn't have permission to view a resource ◦ MSC <ul style="list-style-type: none"> ▪ install and put data ▪ handle changes in extractor ▪ documentation
