

2016-02-07 Updates, extended downtime

Sunday, 2015-02-07 both confluence and JIRA will be migrated to new servers. During this migration both services will be updated to the latest version. This will hopefully help with some of the slowness that sometimes happens as well give us the ability to restart individual servers instead of a reboot of all services. This will allow us to fine tune the servers for better performance for each of the services. This should however not impact NCSA Open Source and you should still be able to access the services as <https://opensource.ncsa.illinois.edu/jira> and <https://opensource.ncsa.illinois.edu/confluence> as before.

This will upgrade JIRA to version 7.0.10 which is a major version jump, as always please let me know if anything does not work as expected. The update to Bitbucket will allow for LFS git repositories. These will be enabled for now. We will keep an eye on the disk usage to see how this impacts the resources provided. Other services that will be updated:

software : Bamboo
current : 5.9.7
version : 5.10.0
release notes : <https://confluence.atlassian.com/display/BAMBOO/Bamboo+5.10+Release+Notes>

software : JIRA
current : 6.4.12
version : 7.0.10
release notes : <https://confluence.atlassian.com/display/JIRASOFTWARE/JIRA+Software+7.0.x+release+notes#JIRASoftware7.0.xreleasenotes-v7.0.10>

software : Confluence
current : 5.9.1
version : 5.9.4
release notes : <http://confluence.atlassian.com/display/DOC/Confluence+5.9.4+Release+Notes>

software : BitBucket
current : 4.1.0
version : 4.3.2
release notes : <http://confluence.atlassian.com/display/BitbucketServer/Bitbucket+Server+4.3+release+notes>

software : FishEye
current : 3.10.1
version : 3.10.3
release notes : <https://confluence.atlassian.com/display/CRUCIBLE/Crucible+3.10+release+notes>
