2016-01-19 Stand Up Meeting Notes

Who	Planned - Tuesday	Accomplished - Friday
Brock Angelo	 GEOD-745 GLGVO-225 GEOD-746 Continue work on IMLCZO- 97 Would like to get latest GEOD and GLTG deployed to production 	 Started work on GEOD-745 and discovered that GEOD-747 was blocking it. Pull requests for all project branches related to that issue were submitted. Met with Mostafa to discuss proposed changes to the Sensors form for IMLCZO. Met with Ted to discuss a new data source for GLTG. Met with Ted to review options for cross-project data sharing. He is interested in showing ISWS sensors from the IMLCZO project.
Edgar F. Black	MSC • I am still waiting for Miami researchers to provide feedback for AJT paper	 MSC New PO1 monitor was received and archived Updated HHM analysis for a new subject H12C63 were produced and sent. No feedback form Miami about AJT paper.
Rob Kooper		
Jong Lee	ERGO workshop	ERGO workshop
Rui Liu	 BD: review tool catalog pull request. Implement deployment using VM images. Other tasks. Earthcube: project meeting. Set up computer: install Office, Lync. Transfer files. 	 BD: reviewed tool catalog pull request. Implementing deployment using VM images. Finished BD-888 (update Docker files and images to pass RabbitMQ exchange into containers). Tested a simpler way Rob proposed to pass in environment variable values in Docker files, per Rob's request. Earthcube: project meeting. Resolved merge conflicts in the datetime annotation PR. Created an issue in Clowder (CATS-360: incomplete deletion of metadata). Set up computer: set up printer, emacs, homebrew, RabbitMQ. Lots of time spent setting up the environment.
Kenton McHenry	 Brown Dog Report NDS workshop planning LSST staffing 	 Brown Dog Report NDS workshop planning LSST staffing
Christoph er Navarro	 Ergo Training - Tues - Thurs, return Friday PM 	Ergo training/workshop
Luigi Marini		
Michal Ondrejcek	 SEAD - JIRA finish (CATS- 333, CATS-334 and CATS- 210) MDF - continue metadata structure of TEM plus MRL facility resources, data model MWRD - I don't know yet. 	 SEAD - DONE CATS-333, CATS-334 and first version of CATS-210) MDF - obtained log files for TEM/SEM MWRD - Learn about OpenLayer base maps
Smruti Padhy		 BD - Started working on creating windows installer for the file manager extension SDN - Met with Konstantin to further discuss the evaluation results and the journal paper, and finished the related work section Diversity Training completed Tuesday (all day) and Wednesday's Morning off

Sandeep Puthanve etil Satheesan	 BD Complete HPC extractor and pyClowder development VAT Space + Search results integration DEBOD Start with segmenting text Make notes for dewarping - for extractor 	 BD Worked on the HPC extractor and PyClowder HPC. It's nearing completion. DEBOD Tested preview code Made notes for extractor Started writing python script for batch upload of images.
Inna Zharnitsky	 Tool catalog integration with Elasticity Module 	 Tool Catalog - sending mock request to RabbitMQ
Marcus Slavenas	 GLTG run more gap filling and load calculations on dev IAPR work on adding map to web app BD start implementation of matlab library while cleaning up matlab requests methods 	 GLTG meet with Ted and Brock to plan for new industrial output sources IARP continued work on analysis web app build simple openlayers3 map with marker start building page for running backend data analysis processes gather files with conversions for states, counties, cities to geocode pushed all images and json files to oasis (xsede storage) BD browndog matlab client dap outputs and convert working clowder download and post file to working
Indira Gutierrez Polo	SEADOre map updatesReview pull requests	 SEAD Ore map updates Review pull requests Pagination for Staging Area Pagination for collection page (datasets within collection)
Jason Votava	 BD Submit Q4_2015 report Update on existing major tasks for team review tools catalog and plan next short term goal NIST All-Hands call GLTG Follow up with CZO data crossover question 	BD • Quarterly report 90% complete NIST • All hands call completed, planning for Thrust 2 workshop on Monday
Yong Wook Kim	 Debug ERGO-352 Review ERGO-325 	 Debug ERGO-352 Ingesting shapefile with empty field Review ERGO-325 Connection point for Tornado Debug ERGO-267 Add analysis description and fix some helps Set up new machine
Omar Elabd	 Roadway Standard Deviation RDF Converter	 Roadway Standard Deviation RDF Converter

Yan Zhao	 SEAD fix a bug for adding metadata for curation file CATS-350 update metadata tab count when adding CATS-335 ability to delete files from curation MSC ask for code for glomerulur detection 	 SEAD fix a bug for adding metadata for curation file CATS-350 update metadata tab count when adding CATS-335 ability to delete files from curation MSC ask for code for glomerulur detection
Maxwell Burnette		 TERRA trip to Purdue on tuesday BETY API planning session Code commits for TERRA demo (missed target for this week's demo - planning for next week) was out Thursday
Eugene Roeder
