2016-04-25 Stand Up Meeting notes

Who	Planned - Monday	Accomplished - Friday
Brock Angelo	- IMLCZO-77 - Meet with Derek and review data sources - Try again to see if I can get out to the Flux tower with Steve - Continue progress on Geodashboard refactor	- IMLCZO-77 pull request submitted - Reviewed data sources with Derek and updated the site config for parameter groups. - Steve was not able to go to the flux tower again this week. - Added a few updates to the mock-api: had some issues in some of the api responses so added unit tests and got them resolved
Rob Kooper		
Jong Lee	- NIST-CORE Workshop - HR	- NIST-CORE Workshop - HR - BD Report
Rui Liu	- BD: Polyglot refactoring design, start implementing. - Earthcube: Search data; upgrade Emeli web for Peishi; Time/space annotation. Other tasks for May 4 webinar.	- BD: Polyglot refactoring SS-registration,heartbeat (BD-1048, 1049) mostly done. - Earthcube: upgrade BMI and Emeli-web for Peishi; deployed geotiff extractor in the dts-dev virtual host, so Clowder on dts-dev and ecgs-dev can use it. Made updates so the skos:exactMatch rules can be used in production mode. Multi meetings for May 6 demo.
Kenton McHenry	- BD Report - Polyglot refacotring/review - NDS Report items - HR - CS Presentation	- BD Report - Polyglot refacotring/review - NDS Report items - HR - CS presentation - CHiMAD presentation - New NDS wiki
Christopher Navarro	- NIST - continue working on combining EQ + Tsunami damage - All hands meeting Wed - Fri.	- NIST - Continued working on combined eq + tsunami damage - all hands meeting, returned Friday night
Luigi Marini		- Brown Dog - new sprint started - debugging and profiling of fence hanging - SEAD - GUI improvements - pull requests - MVP meetings - Earthcube - annotate csv webapp - book chapter revisions - preparations for presentation/demo next week - HR
Michal Ondrejcek	- SEAD - JIRA - MDF - NDS/2016-04-25+Kickoff - MWRD - talk to Erhu about the Water consumption graph	- SEAD - JIRA - MDF - NDS/2016-04-25+Kickoff - MWRD - done

Smruti Padhy		- BD - Addressed the review comments from the team on XSEDE paper - Reviewed the whole paper again with Jay and submitted the paper - Started working on key/token support for BD-CLI - Had a meeting with Praveen's student on landsat NDVI processing - SDN - Wrote a script that combined the experiment of IFB and HTB and did the proper classification and rate limiting. - Did code clean, uploaded to the repo and added a README - HR
Sandeep Puthanveetil Satheesan	- BD - DTS 5 Sprint tasks - DEBOD - Get back to development - VAT **⊞ CATS-395** - Moving datasets in or out of a space should update multimedia distances collection `TO DO`	- BD - Worked on sprint tasks - DEBOD - Update meeting - IARP - Started with attending a knowledge transfer session by Marcus - Initiated OpenCV installation in Comet
Inna Zharnitsky	Work on my Sprint tasks - BD-994	BD-994: -Created model to use for saving deployment messages data. -When sending a request message from TC to EM (via rabbitmq), save this information to mongo. -When receiving status update from EM to TC (via rabbitmq), save the status in mongo. -Created a page to display deployment info about a single request - Created a page to display deployment info about ALL requests - Code to query the db for deployment info about single request (based on the id) and multiple requests - Added code to create an id for the request, pass it as part of a rabbitmq message to EM; then the same id is included in TC's response. This way we can identify that two messages (TC->EM request and EM->TC response) are related.
Marcus Slavenas		- IARP - knowledge transfer to Sandeep - meeting - GLTG - run noaa to dev - rerun fox river to dev - tried running data to prod from dev - connectivity issues - copied db from dev to prod - BD - meet with Kenton and Rui about polyglot tasks - start looking through polyglot code 1.5 days off
Indira Gutierrez Polo	SEAD: - Filter elasticSearch results based on permissions - Review Pull Requests CyberSEES: - Setup new rhessys workflow on wssi GLM: - Work on new search page template	SEAD: - Filter elasticSearch results based on permissions - Fix Permission on listInsideDatasets - Cleanup code using requiresLogin instead of Permission. - Fix ORE map based on feedback - Fix bug in root-collections by user. - Review Pull Requests CyberSEES: - Setup new rhessys workflow on wssi - In Progress. - Update datawolf on wssi to work with mysql instead of file directory GLM: - Work on new search page template

Yong Wook Kim	- Update NIST-CORE presentation videos - Work on Tornado EPN link damage analysis - NIST all hands meeting at Ft. Collins, CO	- Updated NIST-CORE videos - Finished EPN link damage analysis - Fixed wildfire validator for delayed input checking - NIST all hands meeting
Omar Elabd	- NGA Warning Update - Data Ontology - All Hands Meeting, Out Wed - Friday	- NGA Warning Update - All Hands Meeting
Maxwell Burnette		
Eugene Roeder		
Yan Zhao		- SEAD - use updateName instead of updateUserField api - bug of edit file & folder's name - events stuff - MSC - get revised paper from Amelia, thank you.
