

2016-07-20 Meeting notes

Date

20 Jul 2016

Attendees

- [Sandeep Puthanveetil Satheesan](#)
- [Alison Langmead](#)

Goals

Discussion items

Time	Item	Who	Notes
	Minor updates	Alison	<ul style="list-style-type: none">• It'll be good enough if decimal numbers from the top region of frontal view of cards can be recognized.• If the recognized numbers are stored in a tabular format, based on the card type, column names (height, weight, head length, head width, etc) can be assigned.
		Sandeep	<ul style="list-style-type: none">• Will concentrate on improving segmentation of cards into columns• Once the segmentation is improved, it'll be more easy to do recognition• Will create new templates for each of the newly recognized card types

Action items
