2016-11-14 - ISDA Team - Stand-up Meeting Notes

Who	Planned - Monday	Accomplished - Friday
Bing Zhang		
Christopher Navarro	- BD - Work on issues for DataWolf 3.1 release - Work on 36 month review slides - NIST - Version 2 work - Other - Purge datasets from rapid vm, send instructions how results can be purged after runs - Jury duty - uncertain availability each day	- BD - BD-1376 - worked on provenance slides - Worked on DataWolf 3.1 issues, including a display bug when working on slides - NIST - Worked on storing files by user in Clowder. DataWolf was storing the datasets by user, but since the files are stored by a separate DAO changes need to be made to the FileStorage interface. Suggested a fix in WOLF-194 - Fixed datawolf bug for deleting datasets with the /datasets/purge API - Other - Worked on purging data on rapid VM, sent instructions to the graduate student for doing this in the future after runs are finished - Jury Duty - half day Tuesday
Craig Willis		- NDS-693: Test Gluster sharding config - In Progress - NDS-660: Investigate issues on beta master node - In Progress - NDS-630: Change NRPE config to support custom limits - In Progress - NDS-275: Explore using Google Analytics to examine and improve UX - Resolved
Eugene Roeder		
Htut Khine Htay Win		
Indira Gutierrez Polo	- In-CORE - Continue Working on UI for Bridge Analysis - Update states for the Bridge Analysis - Start connecting the UI with Datawolf Workflow - Start looking into the Railway analysis for V1 - GLM - Ingest Zooplankton data into Dev. - New Search page updates	- In-CORE - Continue Working on UI for Bridge Analysis - Look into the datawolf workflow for Bridge Analysis - Start looking into the Railway analysis for V1 - GLM - Ingest Zooplankton data into Dev. - New Search page updates
Inna Zharnitsky		
Jing Ge	- Meet with AWS solution architect and campus IT to discuss about how to adopt AWS to our pipeline - Update data_cleanup_pipeline based on new requirement including source code and test code - Performance investigation for gene_prioritization_pipeline	- Met with AWS solution architect and campus IT and fix the solution for using Auto Scale Group service instead of Lambda service. - Standardized data_cleanup_pipeline to have the same main function structure as other pipeline - Investigated the performance for gene_prioritization_pipeline and improved the total running time from 9 minutes to around 1 minute.
Jong Lee		
Sara Lambert		- NDS-653: Extra endpoints listed on shutdown - Resolved - NDS-639: Add Cloud9 Python - In Review - NDS-638: Password recovery not working - Resolved - NDS-621: UI shows endpoint when access=internal - Resolved - NDS-611: Confirm basic UI function across browsers - Resolved - NDS-560: Update per service Wiki documents with configuration instructions - Resolved - NDS-157: Investigate Unit/E2E testing for GUI - In Review

Kenton McHenry	- Fix BD dev instance - BD Report - Follow up on review material - BD pull request reviews - Update BD webpage - Meet with Heidi - Follow up on Caltech dataset - NCSA Published datasets planning - DIBBs proposals	- Fixed all remaining issues with BD dev instances, fixed tests and redeployed! - BD Report submitted - Follow up on review material - BD pull request reviews - Updated BD webpage, downloads page, system status, redeployed bdfiddle, signup. - Met with Heidi - Follow up on Caltech dataset - NCSA Published datasets planning - DIBBs proposals
Luigi Marini		
Marcus Slavenas		
Maxwell Burnette		- Move TERRA globus monitor logging from flat files to Postgres database - Implement better log monitoring services for long-life Globus service - Begin converting TERRA extractors to PyClowder2 for error tracking - Github audit meeting
Michal Ondrejcek	- MDF - 2016-11-14+Kickoff - MWRD - finish new CSO data ingestion, software update (Ubuntu 16.04)	- MDF - 2016-11-14+Kickoff - MWRD - done, done
Omar Elabd	v2 Sandbox	- v2 Sandbox (UI) - v2 Sandbox (Fragility Server) - CyberGIS Workshop - Civil Engineering Meeting - Workflow Diagrams
Rob Kooper	- PEcAn - THREDDS - BD - convertors in bamboo - look at kubernetes - LSST - finish sprint, plan new sprint	
David Raila		- NDS-694: Test raw Gluster configuration - Closed - NDS-535: Intermittent "no data available" error from Gluster - Reopened - NDS-348: Implement backup of glusterfs global filesystem - In Progress - NDS-262: Stress-testing on prototype GlusterFS - In Progress
Sandeep Puthanveetil Satheesan		
Shannon Bradley	- HR Interview follow up - resume review and 1st interview scheduling - Brown Dog management - rollout - Brown Dog - Dec 5 planning - T-Shirts follow up - BD Quarterly Report - Review GLTG Milestones with Jong - Michelle Pitcel - Onboarding In-Core Reports - status	- additional first interviews on hold except for 1 candidate - Rollout doc 1st version complete - in review - Brown Dog planning for Dec 5 - ongoing - T-Shirts - have just about everyone - BD Quarterly Report - done! ready to upload today - GLTG Milestones - reviewed with team - still need to review with Jong - Michelle Onboarding - going better than when I worked with Jing/Bing/and Htut Khine I think - In-Core Reports - holding pattern
Smruti Padhy		

Yan Zhao		- BD - tweak signup page - shiny app for pecan use case: connect to bdapi and get the result - bd.r as a library in github. - GLM - date picker for search page-- almost done. - review indira's PR
Yong Wook Kim	- React / Redux test for INCORE v2 mock up - Meeting with Civil Engineering and start work on making script - CyberGIS Geospatial Python workshop	- React test for various javascript library for INCORE version 2 UI - CyberGIS Geospatial Python workshop - Meeting with Civil Engineering people and started work on creating python script for network builder
